

# #5 Twin Crane

(c) 3/98 by Julius Kusserow

page 1/1

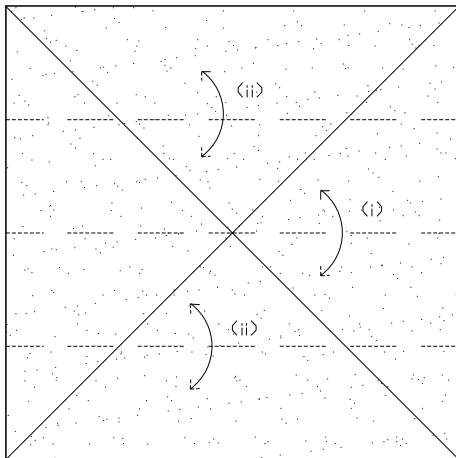

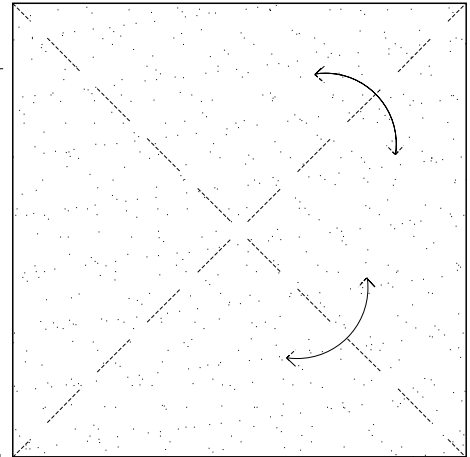

This "Twin Crane" is based on a "Twin Crane" model I saw 9 month ago. Possible it is a recreation of a design from a person unknown to me or it is a different design. It was the first advanced origami model I have ever seen and the base for my new passion: Origami. Thanks to Martin Hunger who taught me my first model. Thanks to Nayumi Kitamura who show the model of the "Twin Crane" to me.

<-(0) The unfolded model without the creases from narrowing tails and necks and making the heads (step 22).

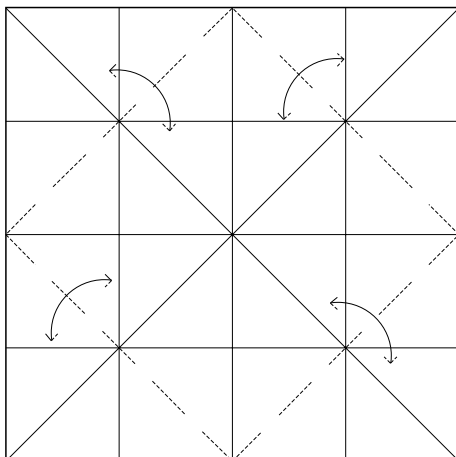

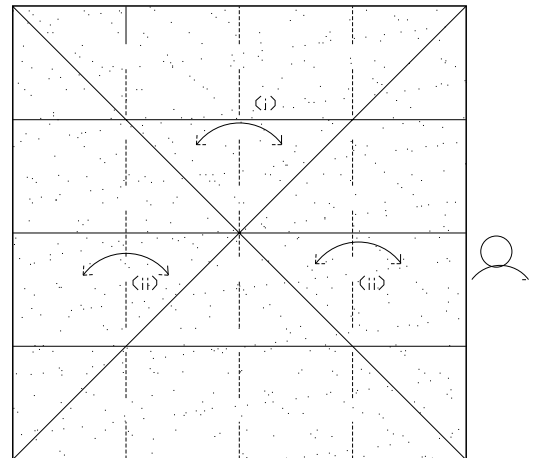

Square shape paper of length  $X$  gives  
ca.  $0.5 X$  width  
ca.  $0.3 X$  depth and  
ca.  $0.3 X$  height model.

(1)-> Fold and unfold both diagonals as valleys. White side up.

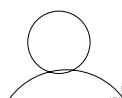

<-(2) (I) Fold and unfold centre crease. (II) Fold to centre crease.

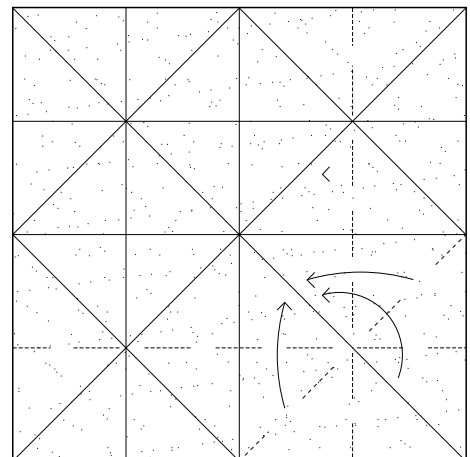

(3)-> as in (2) turn around.

<-(4) Blintz and unfold. Turn around.

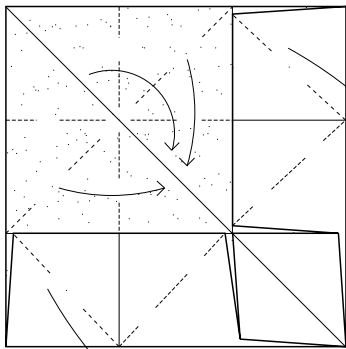

(5)-> Fold a "Preliminary Base".

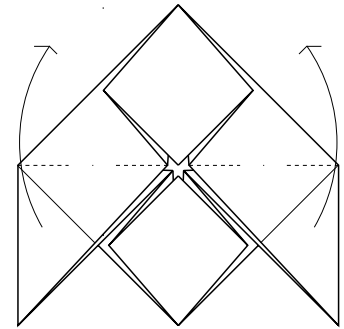

# Twin Crane

page 2/3

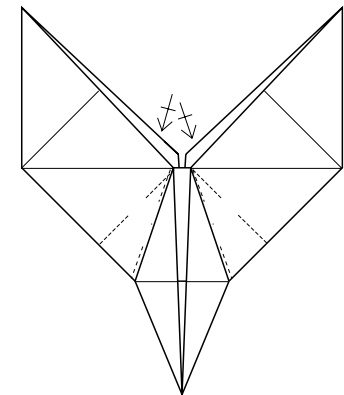

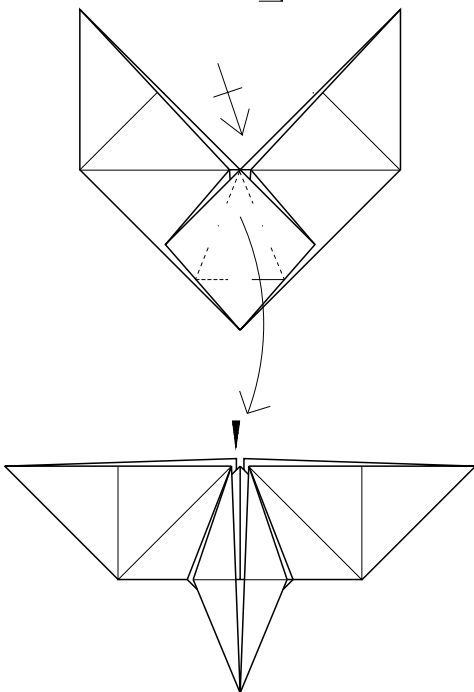

<-(6) Fold another "Preliminary Base". Fold two rabbit ears. Circle 45 degree right.

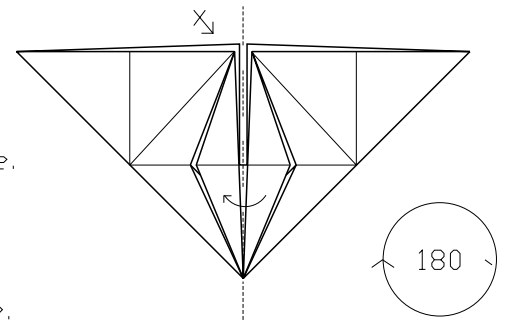

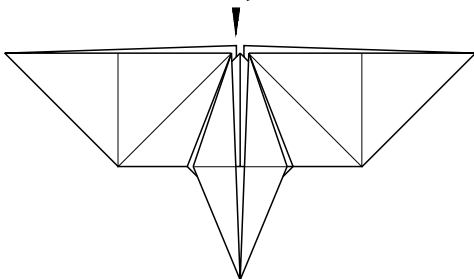

(7)-> Fold as mountain. Let swing rabbit ears to top.

<-(8) PetalFold. Repeat behind.

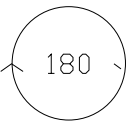

(9)-> inside reverse and outside reverse fold to create the rest of the bird base. Fold all 4 reverse folds simultaneous.

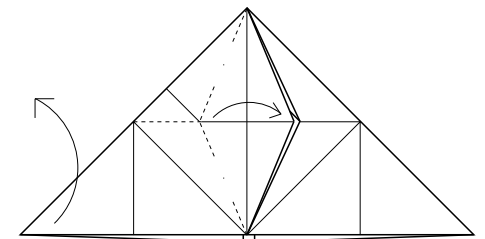

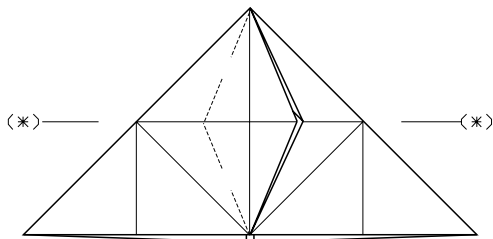

<-(10) Unsink middle. You can also do (9) and (10) in on step. Try to create the other half of the bird base. Sometimes this is the easier way.

(11)-> Fold first and second flap to the left. Repeat on other side. Circle 180 degree.

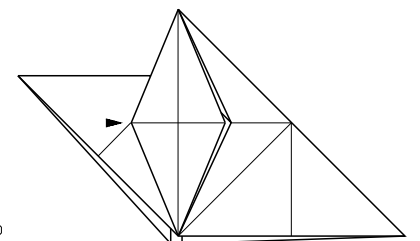

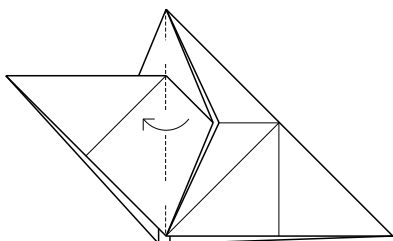

<-(12) Precrease up to (\*) crease.

(13)-> Squash. Fold flap to the left.

<-(14) Fold first flap to the left.

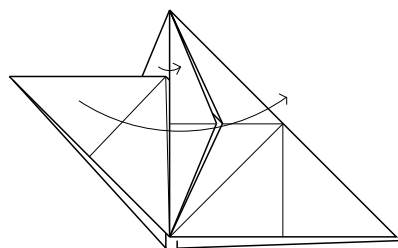

(15)-> Close sink flap from step 14.

page 3/3

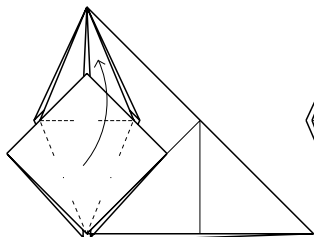

<-(16) Fold large flap and first small flap to the right.

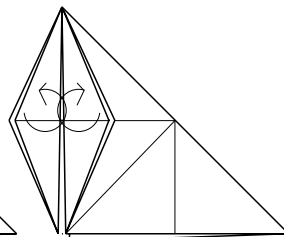

(17)-> Close sink.

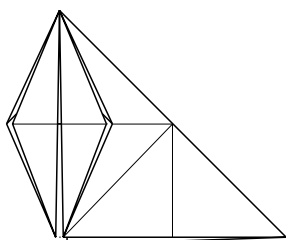

(18) Squashfold.

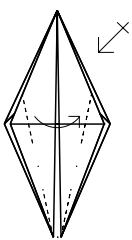

(19)-> Petal fold.

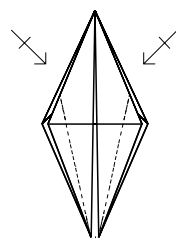

<-(20) Left and right: put flap in the pocket from close sinks in steps 15/17.

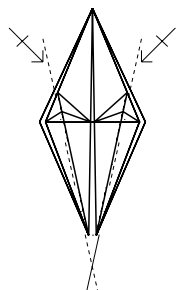

(21) Repeat steps 11-20 (22) Fold two flaps on other side.

(22) Fold two flaps to the right. Repeat behind.

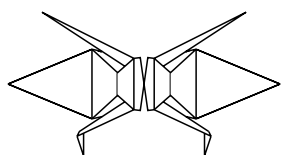

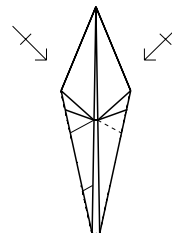

<-(23) Narrow neck and to with valleys (first step). Repeat behind.

<-(24) Narrowing neck and tail, step two with mountains. Repeat behind.

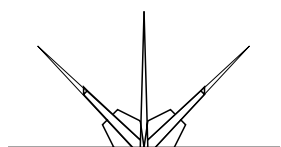

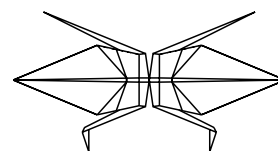

(25)-> Inside reverse necks and tails. Inside reverse heads. Pull on wings to give the body volumina.
